

Feedback from everyone was very good - the best ever. If you keep on raising the bar you will have to start jumping very high indeed! Very good, very professional! The Holy City was beautiful – David has a wonderful voice.

They did the play very well. I want to pass on my vote of thanks to all involved. It isn't very long but it takes a lot to produce it. I think it out and then rough it out. Then I have to get one of the carers to come and try and decipher what I have written. She does a fair copy and then reads it on to the tape for me because I can't read anything.

Thanks again for everything.
