

Dear Wayne,

Thanks once again to you and all your Loosely Woven team for your wonderful entertainment last night. Once again a night to be remembered. I have attached a few computer generated models of the new church as you requested. I think they are very good, but are very much like photo's taken close up with a wide angle lens so the image is somewhat distorted. I have also included photo's of the balsa wood model you have seen.

Ignore the colours as they are too vivid.

Cheers, Bruce Grime
