Dear Members of the *Loosely Woven* group,

May I take this opportunity on behalf of Woolli Volunteer Rescue (Marine) to express our sincerest thanks for your generosity and support.

Your contribution has enabled the Unit to assume a more viable financial status and has provided the members with a positiveness that I am sure will translate to them achieving and performing at their highest capacity. Our members donate, on average, over 5500 man hours a year to marine rescue; perform an average of 16 rescues a year saving approximately 30 persons. They undergo extensive formal accreditation training enabling them to become fully qualified crew members, radio operator and rescue skippers – all of this takes time and energy.

It is great to think that there is a generosity of spirit in the community that helps us achieve our goals as marine rescuers.

Our Unit provides an essential offshore marine rescue service – having a quick response Category 2 vessel and a newly built Marine Radio Base. Both of these require significant funding to ensure that they meet State Rescue Board and NSW Maritime standards.

The funding generated from fundraising activities such as yours ensures that we operate to our fullest capacity, thus maximising the safety net provided for all users of the offshore waters of the Clarence Valley.

May I extend an open invitation to you to visit our Marine Radio Base facility should have the good fortune to visit our holiday hideaway – Wonderful Woolli!!!

Sincerest thanks

Stephen Reading
